**CONFIRMATION**  
*of Internship for Andrii Fokin*

This is to certify that Andrii Fokin, Head of Department, Department of Organic Substances and Organic Technology, National Technical University of Ukraine, Kyiv, Ukraine, undertook an Internship at the Justus Liebig University Giessen, Germany, for 40 days from August 07, 2023 through September 15, 2023 (200 Academic Hours, 6.7 ECTS credits) by participation in staff training and teaching in the field of *Computational Chemistry*. In particular, he became acquainted with a number of modern computational chemistry methods and Programs (Gaussian, ORCA, NCIplot, Spartan, C4, and AIMall) and performed multiple computations. This resulted in finalizing a joint JLU/KPI manuscript to be submitted to the high-impact international peer-reviewed *Journal of Organic Chemistry* (Q1). Over his stay he also supervised several JLU co-workers as well as the KPI exchange student Anastaciya Yukhymchuk, whose visit was supported by the JLU Liebig College. Due to information exchange with academic experts a joint research proposal between KPI and JLU was drafted as part of the JLU internationalization strategy.

Sincerely yours,

  
Prof. Dr. Peter R. Schreiner  
Institut für Organische Chemie  
der Justus-Liebig-Universität
